 - a. Aug 1st F Field Course moved to 4pm. All registrants have been notified, signup links have been updated to reflect new time.
 - b. Received the Recreational Coach Module developed by Paul Sapsford which has now been replaced by the USSF National F and CalNorth F Field component. League voted last year to mandate that all coaches with the grandfathered F licenses take this recreational coach module. Given the concussion requirement, consensus is to place course on the League website and encourage a good percentage of coaches to view & submit the quiz answers to the League. It's a tool to transition coaches who have not been trained in the new approaches and philosophies. Institute mandate next season.
